Article V

Rural District, District (7)

Land within Zoning District (7) may be occupied and used and buildings and structures thereon may be erected, altered, occupied and used only for the following purposes and subject to the following provisions:

1. Permitted Uses. The following uses are hereby permitted:

(a) Any use which is permitted in Hopkinton Village Commercial Zone (Zoning District (6)) including uses requiring special permits.

(b) Farms, forestry, livestock and poultry raising together with the necessary processing incident thereto shall be permitted in this district.

(c) Hospitals for the treatment of animals shall be permitted.

(d) Organized camps and overnight cabins provided that buildings are separated by at least twenty-five (25) feet and are set back from the public way by at least one hundred (100) feet.

(e) Other industrial uses, drive-in theatres, airports and flying services, and other places of public amusement, may be allowed by special permit of the Zoning Board, provided that the applicant demonstrates the use will not be unreasonably obnoxious or injurious to the public or to persons occupying other premises in the vicinity by reason of the creation or emis-

sion of odor, dirt, smoke, refuse, fuels, noise, etc., or that unreasonably interferes with the comfort, peace, enjoyment, health, or safety of the community.

(f) No trailer or mobilehome shall be maintained for living purposes except in a mobilehome or trailer park or as otherwise provided, except that a trailer or mobilehome may be parked and used for not more than thirty (30) days and no permit shall be required for such use.

(i) A trailer or mobilehome may be maintained and used as living quarters by the owner of the lot on which it is parked, or by a person employed on the premises, or by a person visiting the owner of the lot for a period not to exceed six months, and after prior permit from the Zoning Board, provided that no remuneration is made to said owner or his agents, and further provided that such use is shown to be a temporary expedient. Said permit shall be subject to such reasonable rules and regulations for the protection of the public health, safety and general welfare and upon said terms and conditions as the Zoning Board may deem proper. The Zoning Board may approve a single renewal of such permit upon re-determination of the conditions under which such a permit may be allowed.

(ii) A trailer or mobilehome or group of trailers or mobilehomes may be located and used on land outside a mobilehome or trailer park after prior permit by the Zoning Board when such trailers and mobilehomes or a group of trailers or mobilehomes has its principal use as a field office or headquarters for a construction project which is being carried on in the Town. Such trailers or mobilehomes may contain living quarters which may be utilized by officials or employees of the company or agency engaged in the project, but which shall not be utilized by the families of such persons. A permit shall be issued only upon determination by the Zoning Board that a health or safety hazard to the neighborhood will not be created, and the Board shall attach such reasonable terms and conditions to the permit as it deems reasonable to preserve the purpose and intent of this Ordinance and to protect the public health, safety, morals and general welfare. The Zoning Board shall determine the effective duration for which such a permit shall be issued and upon application may approve renewal of such permit upon re-determination of the conditions under which such a permit may be allowed.

(g) Mobilehome or trailer parks are prohibited except after prior permit from the Zoning Board which shall be issued only upon its finding that the proposed park complies with the following requirements and such further terms and conditions as the Board may find proper to impose to protect the public health, safety, morals and general welfare.

(i) The said park shall be so located as to be screened from view from abutting properties and the public right of way, and shall not put an undue traffic burden on the public road to which it abuts.

(ii) Prior to issuance of the permit the applicant shall place upon file with the Board the certificate of the Town Health Officer that the plans and specifications are in his opinion in accordance with State laws and regulations, regulations of the New Hampshire State Department of Health, and Town ordinances and regulations pertaining to sanitary arrangements.

(iii) All roadways shall be paved, and at least one paved parking space shall be provided for each trailer or mobilehome. All roadways shall be lighted at night. No parking shall be allowed on roadways. If service roads to the rear of the trailers are provided, they need not be paved but must be graveled sufficiently for all-weather use. Such service roads need not be illuminated.

(iv) Three thousand (3,000) square feet shall be provided for each unit and shall be plainly marked with permanent markers at each corner.

(v) No sheds, lean-tos or other structures may be built onto any trailer or mobilehome other than an awning, or an entryway.

(h) No gravel pit, sand pit, or quarry shall be permitted in this District except after prior permit from the Zoning Board which shall be issued only after its findings that the proposed operation complies with the following requirements and such further terms and conditions as the Board may find proper to impose to protect the public health, safety and general welfare.

(i) Such operation will not create a traffic condition detrimental to the neighborhood or hazardous to the use of the highway, and will not place an undue burden on the load-bearing capacity of such public roads as will be utilized by the operation.

(ii) Such operation will not create noise or dust to the extent that it will be detrimental to the health or comfort of nearby residents in their reasonable enjoyment of their property, nor to members of the public.

- (iii) Upon abandonment of the operation of such pit or quarry, the owner shall grade all banks to a stabilized slope and fill in, or provide drainage for, any pit below the average water table or pit where surface water will collect and remain during normal climatic conditions.
- (iv) The Zoning Board shall attach such further conditions to a permit including the requirement of posting of a reasonable bond to ensure compliance herewith as it deems necessary to preserve the spirit and intent of this Ordinance.

2. **Lot Area Required.** Each principal building shall be on a lot of at least 40,000 square feet in area with a frontage on a public right of way of at least 200 feet, except that individual lots of record held in single ownership at the time of passage of this ordinance shall be exempt from this provision. Vacant lots in the same ownership having in the aggregate a continuous frontage of 200 feet or more and an area of 40,000 square feet or more, shall not be subject to this exception.

3. **Signs.** No signs shall be erected, re-erected, enlarged or extended in this zoning district otherwise than as herein provided:

(a) No sign shall be erected nor displayed for view by persons in the public way having flashing, bright or dazzling lights, neon tubing or moving parts, and no sign shall be illuminated with naked or unshielded lights.

(b) There may be erected and displayed upon the premises of any advertiser two (2) general advertising signs, each not in excess of twenty (20) square feet in exposed area provided that a prior permit for the erection of such signs has been obtained from the Zoning Board pursuant and subject to such reasonable terms and conditions for the protection of the public safety and general welfare as the Board may impose.

(c) Any person, firm or corporation engaged in business may erect and maintain two (2) general advertising signs on land not constituting the premises of the advertiser provided that a prior permit for the erection of such signs has been obtained from the Zoning Board pursuant and subject to such reasonable terms and conditions for the protection of the public safety and general welfare as the Board may impose; and further that neither of the said signs shall exceed twenty (20) square feet in exposed area and each shall be located within one thousand (1,000) feet of the place of the said business, except if said business is on a Town road, such signs may be located within one thousand (1,000) feet of the junction of the Town road and the nearest State road.

(d) Subject to the requirements of subparagraph (a) above which shall apply to all signs throughout this zoning district, nothing herein shall be deemed to prohibit, control, or require a prior permit with respect to any of the following:

(i) The size and number of signs to be affixed to the building of an advertiser, calling attention to products or services offered on the premises, or signs on the premises of the advertiser which are designed to command the attention of persons on the premises rather than persons on the highway.

(ii) A sign or signs announcing the name of a residence or farm, or the name or profession of the occupant thereof. Such signs need not be restricted to the property of the owners of such signs.

(iii) Temporary signs advertising farm products sold at a seasonal roadside stand or posters advertising community, church, or club affairs, or posters used in connection with campaigns for public office.

(iv) A sign, not to exceed 20 square feet in area, advertising the sale or lease of a building or lot and located on said lot or lots on which said building is located.

(e) None of these provisions shall be construed to limit or restrict in any way signs erected by the Town of Hopkinton, The State of New Hampshire or its agencies or the Federal Government or its agencies.

4. **Lot Area Included.** Zoning District (7), Rural District, shall consist of that part of the Town of Hopkinton not included within Contoocook Fire Precinct, Hopkinton Village Precinct, nor the Recreational District, (Zoning District (8)), as the latter is more specifically defined in Article VI below; and is specifically set forth in the official zoning map of the Town of Hopkinton on file with the office of the Town Clerk.

REPORT OF CEMETERY TRUSTEES

December 31, 1959

The necessary care of the cemeteries was continued and no major improvements were undertaken during the year of 1959.

The land adjacent to the New Hopkinton Cemetery to be acquired from Harold C. Kimball and the land to be transferred to him, has been (x) surveyed. The state has completed a new entrance road to the New Hopkinton Cemetery and (x) work has been begun on an extension of the entrance road to give access to the property Mr. Kimball has agreed to transfer to the town.

During 1958 we sold timber and received \$455.22. The Suburban Excavators, Inc. have paid \$3,816.75 for the fill taken from the rear of the New Hopkinton Cemetery. The town counsel has advised us these funds (x) can only be expended to improve and/or enlarge cemeteries.

A great deal of thought and time has been spent on the re-location of the Stumpfield Cemetery. Present plans call for acquiring a tract of land, adjacent to the Contoocook Cemetery, for this purpose and sufficient land for future development in that cemetery. Negotiations are entirely in the hands of the United States Corps of Army Engineers.

REPORT OF THE BATES LIBRARY BUILDING COMMITTEE

After many years of anxiety and waiting, the Bates Library became a realization. In 1909, Richard W. Bates, a resident of the town, made provision in his Will for the building of a library in Contoocook, and in 1942 the legacy was turned over to the town. In 1949, the site for the building was given by Mr. and Mrs. Arthur C. Huntoon in memory of Captain Grovenor A. and Augusta W. Curtice.

Like all Building Committees, we were faced with the rising costs of material. After many meetings and decisions, the building Colonial design and constructed of brick, was designed by Norman F. Randlett of Laconia, and built by Thomas G. and E. Bertram Astles of Contoocook.

The building is 30' by 40'. On the first floor is the reading room and in the basement, the cement vault for town records and an assembly room.

Several organizations and many friends of the library have shown much interest in furnishing the reading room. The large walnut charging desk and chair were given by friends in memory of Arthur C. Huntoon. The Woman's Club of Contoocook generously gave money for two large reading tables and six chairs. The Hopkinton High School Alumni Association contributed money for another chair. The Contoocook Service Club gave money to buy the book truck, and a friend of the library gave a large reading table for the little children.

On August 22, 1959, Open House was held and the building officially opened to the public.

The members of the Building Committee were: Library Trustees, Mrs. Foster Barnard, Col. Theron G. Methven, Mrs. Harold E. Brown; Selectmen, Frank M.

Kimball, E. Bertram Astles, Donald N. Rice; Trustees of Trust Funds, Arthur S. Duston, Constance Emerson, Mrs. Harold E. Brown.

May we take this opportunity to express our appreciation for the services of Mr. Norman F. Randlett, architect; the Astles Brothers, contractors; and to each and every one who has cooperated in any way in helping to construct and furnish the Bates Library.

Respectfully submitted,

THE BUILDING COMMITTEE

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note:

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires were caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple —

1. Before burning, secure a permit from your local forest fire warden — the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles — use your ash tray.
5. Don't burn at home — Use your Town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires — 9

Number of acres burned — $17\frac{3}{4}$

Number of permits issued — 102

Total Enrollment in Hopkinton — September 1959			498

I have included in my report two papers that were prepared for a study committee that has been set up by the School Board to investigate the need of the School District for additional classroom space. The first paper showed the status of the school districts bonded indebtedness and the schedule of payments on the High School

and the Harold Martin School. You will note that in 1962-63 the principal payment goes to \$29,000 because the High School principal payment increased to \$14,000 according to schedule. In the 1963-64 school year the principal payment decreases to \$24,000 as the Martin School payment drops from \$15,000 to \$10,000. In the 1967-68 school year the principal payments drop to \$10,000 because payment has been completed on the High School bonds.

The second paper shows the school census of pre-school children as of September 1, 1959 and the enrollment in the various class rooms as of the same date. This shows by comparison with last year's figures that we have an increase of 24 pre-school children and an increase of 22 in pupil enrollment. Thus the upward trend of pupil population continues in Hopkinton.

This year we added an extra teacher in the High School building and split the 7th grade class because of its size. Next year we shall have two seventh grades and two eighth grades so we will have to have an additional teacher to take care of the second section in grade eight. We should have another teacher to take care of the increased size of High School classes, particularly English and Civics: to relieve the Commercial teacher, who is overloaded; and to permit the Principal to spend more time on Guidance and Administration of the whole High School program. These suggestions are in keeping with the recommendation of the Evaluation Study Committee of November 1956.

The study committee, which is under the chairmanship of Robert Russell, will, in all probability, submit a report of its own to the School District meeting, and may be ready to make some recommendations as to additional class room space. We do need space to carry on our school program, and I am sure that the Study Committee will have a possible solution to present to the School District in March.

We have one new teacher in the Grade School. Mrs. Carolyn Wallace, who was elected to the vacant position in the Grade School, is a very competent and experienced teacher, and we are happy to have her on our teacher staff. We have had several changes on the High School staff, which Mr. Milne will discuss in his report.

I would like to pay tribute to two Veteran Teachers who are no longer with us.

John L. Babson, who was starting his thirtieth year as a teacher in Hopkinton High School, passed away last fall. His loss was a severe one to the school. John was a faithful teacher who had great concern for the needs of each individual youngster. His wise observations and good humor contributed to comradeship of the teachers in the High School and helped maintain a high morale in the school. John L. Babson will be sorely missed by all, but particularly by those of us who worked with him so many years. John has left this school, but many a pupil and teacher will be better persons for having known and associated with him. A Scholarship Fund has been started to perpetuate his name in the history of Hopkinton High School.

Mrs. Evelyn M. Rice, who had been the Home Making teacher in Hopinton High School for fourteen years, retired in June of 1959. We have a very strong Home Making Department through the efforts of Mrs. Rice, who was recognized throughout the state as an outstanding teacher. Through her efforts many of her girls decided to go into teaching or some other field allied with their course in Home Making. Her loyal efforts on behalf of the young people of Hopkinton High School will be missed by all of us.

Willie C. Blake, who served Hopkinton School District for twenty-one years was forced to retire this fall because of illness. "Bill" started his work at the old high school and continued as janitor of the new high school building when it was opened. The old building

had a hand-fired soft coal boiler and many mornings "Bill" was at the old school at two o'clock in the morning so he could get enough heat in the building before school started. He was a loyal worker for the School District and took great pride in keeping the building neat and clean. We hope that "Bill" has a long and happy retirement.

On the whole we have a very competent staff of teachers and every effort should be made to keep them. Although salaries have been increasing in recent years they are not high and some of our experienced teachers still receive little more than many beginning teachers graduating from New Hampshire Teacher's Colleges command for a first year's salary. We must continue to improve our teacher salary situation, if we are to maintain continuity in our staff.

Hopkinton will, I am sure, continue to deserve its reputation of wanting and getting a good educational program for its young people. More and more of our young people are attending a wider range of colleges. Those who have made a good record in school have found no difficulty in being admitted to the college of their choice.

I enjoy the friendly atmosphere of Hopkinton and appreciate the cooperation of the School Board, Teaching Staff and Parents. Hopkinton is a good town in which to work.

To: Mr. William C. Sterling
 Superintendent, Supervisory Union No. 26
 Contoocook, New Hampshire

Mr. Sterling:

I hereby submit my report for the year 1958-1959 as
 Principal of Hopkinton High School.

MEMBERS OF THE CLASS OF 1959

Audrey Ashford	Sandra Holmes
George Beardsley	Martha Houston
Glen Bohanan	Janet Langwasser
Virginia Bowen	Arthur Lawson
Robert Brown	Maureen Mole
Dawn Carr	Madeleine Scribner
Barbara Colvin	Sherwin Terrill
Elaine Gordon	Joan Tobey
Marilyn Hemphill	Gretchen Wibel
Gail Hilton	George Wunderlich

Of the above graduates, seven have gone on to further their education and the remainder are all gainfully employed.

This year, 1958-59, saw the addition of Mr. Robert Holloran to the staff as a junior high instructor. Miss Mary Nelson moved into the high school to fill the vacancy created when Mr. Bourey left.

The following is an accounting of the Activities Fund:

<i>Expenditures 1958-59</i>		<i>Receipts 1958-59</i>	
Dues	\$30.00	Hopkinton School Dist.	\$300.00
Equipment	207.59	Admissions Basketball	530.75
Officials	216.50	Class of 1959	3.41
Police	41.00		
Transportation	210.50		<hr/> \$834.16
Cleaning Uniforms	75.40		
Locks for Lockers	30.00	Total Expenditures	\$869.09
Miscellaneous	58.10	Total Receipts	834.16
	<hr/> \$869.09		<hr/>
		Deficit 1958-59	\$34.93

The present school year has seen the addition of another junior high teacher, Mr. Ronald Whittum, since it was necessary to divide the incoming seventh grade. This division into a regular seventh grade section and an accelerated seventh grade section was done on the basis of test results, past performance, and teacher evaluation. There has been sufficient flexibility in scheduling to permit students to move back and forth between the two groups. I feel that this method has worked well and hope that we shall continue to have the necessary flexibility to continue this program. In addition to their regularly prescribed course of study, both seventh grade sections are receiving instruction in French. This enrichment experiment has proved worthwhile and it is my hope that one day it will be made a permanent part of their program.

This current year has brought other changes in the staff. Mrs. Carolyn Roberts is the new commercial teacher; Mr. Frank Hounsell is the new science instructor, with Miss Mary Nelson returning to her junior high position; and Mrs. Marguerite Roberts is the new Home Economics instructor.

This year we have embarked upon a program to improve the reading skills of all students and also a program to improve the writing skills of those who are college-bound. I feel that the townspeople have good reason to be proud of their high school and the quality of the program it offers. The high school is accredited by the New England Association of Colleges and Secondary Schools and no graduate who has met the school's standard has been denied admittance to college.

We still have problems to be solved. Chief among these is that of space. Since it is going to be necessary to divide the incoming seventh grade, the problem of where to put classes will be rather acute — even more so in the year 1960-1961. There are also the problems of retaining teachers of proven ability and of securing

additional teachers. It would appear that we shall need two additional teachers for the coming year, one for the junior high and one partially for junior high and partially to relieve the load in high school. We are constantly faced with, and are aware of, the need for continuing improvement in our present program.

In closing, I would like to commend Mrs. Evelyn Rice for her many years of faithful service to the youth of this community. Also, I would like to pay tribute to the memory of Mr. John Babson. He was a source of strength and we all — teachers and students — will be forever indebted to him. I would urge one and all to support the scholarship fund established in his memory.

Respectfully submitted,

WILLIAM H. MILNE,
Principal
